## We've Got Your Back No Matter What!

The NDA 2021 Legislative session recap:

SB 269 Retro-Active Claims Denial that we affectionately called our cleaning-up claim denials bill passed unanimously. In brief, the bill protects dental practices and patients by 1) prohibiting dental insurers from retroactively denying coverage they pre-approved; 2) implementing a statute of limitations of one year for insurers to recover an overpayment; 3) insurers must provide written notice of any attempt to recover overpayment; and 4) insurers must create written procedures by which a dentist may appeal.

SB40 (All payers database) authorizes the Patient Protection Commission to establish an all-payer claims database containing information relating to health insurance claims for benefits. The State has draft regulations and is hosting listening sessions; However, implementation is contingent on receiving grant funds.

SB420 (Public Option) directs the state to create a public option health insurance plan for all Nevada residents. The plan is to cover essential health benefits, including dental. The state is currently hosting design sessions. The final plan will need to be finalized and approved by the 2023 legislature before implementation.

SB248 (Debt collection amendment) is a medical debt collection bill that prohibits the commencement of a civil action to collect small claims medical debt. Added: “Nothing in the bill shall be construed to prohibit the commencement of a small claims action in justice court to collect medical debt.” However, more clarification is needed (according to some collection agencies).

## Other 2021 and 2022 Highlights
